

CS337 and CS338 Replacement Belts

REV 0 8/1/2011

Wire feed belts. 4pc required 2 for infeed, 2 for outfeed

139454 Green (Standard)

139455 Red (Softer)

The green belt is the best overall belt to use.

The red belt is a softer belt that will grip better on smooth wires such as Teflon, but it will also wear out faster.

Timing belt used to connect the feed motor to the wire feed mechanism.

032.008 timing belt 9mm wide

Timing belt used to connect the cut motor to the cutter mechanism.

032-010 timing belt 9mm wide
