

# MC Cable Products

Priority Wire & Cable offers a full line of aluminum armored cables including copper conductors from 14 awg to 600 MCM and aluminum conductors from 6 awg to 750 MCM.

Available product lines include:

**Circuit Size Solid and Stranded Copper**— 14 to 10 awg, 2 to 4 conductor with green insulated ground, THHN/THWN insulation. 120/208V and 277/480V color coding, plus special color coding available. Packaged in standard coils and reels. Gray PVC jacket in stock for sizes 12 to 10 awg and available by special order for other sizes.

**Intermediate Size Stranded Copper**—8 to 1 awg, 2 to 4 conductors with green insulated ground, THHN/THWN insulation. 120/208V and 277/480V color coding, plus special color coding available. Packaged in standard lengths and cut to length. Black PVC jacket in stock for sizes 8 to 4 awg and available by special order for other sizes.

**Feeder Sized Stranded Copper**—1/0 awg to 500 MCM, 3 and 4 conductors with bare ground, XHHW-2 or THHN/THWN-2 insulation. Color coding is Method 4, black conductors with numbers. Stocked in bulk reels and can be cut to length.

**HCF-Healthcare Facility Cable Solid and Stranded Copper**—12 and 10 awg, 2 to 4 conductors with two green insulated grounds, THHN/THWN insulation. 120/208V and 277/480V color coding, plus special color coding available.

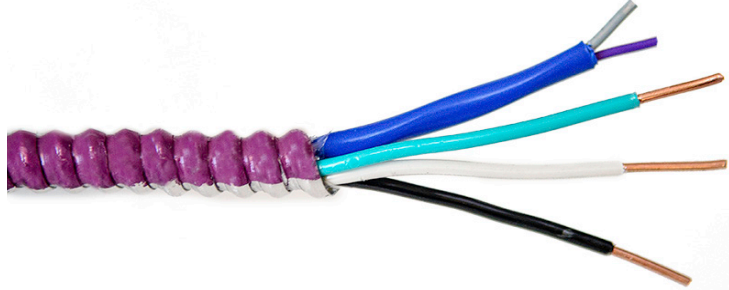

**IG-Isolated Ground Solid Copper**—12 and 10 awg, 2 to 4 conductors with two green insulated grounds, THHN/THWN insulation. 120/208V and 277/480V color coding, plus special color coding available.

## Voltage and Control MC Cable

—One cable for dimmable LED fixtures  
**MC-VC™ Power with 16/2 control**—12 and 10 awg solid copper THHN/THWN conductors in various color combinations with a jacketed 16/2 control cable with purple and gray conductors. Stocked in coils and reels.

**Super Neutral** —12 or 10 awg solid copper THHN/THWN with oversize neutral and green insulated ground.

**Neutral per Phase** —12 or 10 awg solid copper THHN/THWN with a neutral for each phase and two green insulated grounds.

**Home Run Cable**—12 or 10 awg with six or eight solid copper THHN/THWN conductors with a green insulated ground. Stocked on reels. Higher conductor count available by special order.

**Parking Deck Cable**—PVC jacketed MC Cable UL listed for direct burial in earth or concrete. 12 and 10 awg with 120/208V and 277/480V color coding, plus special color coding available.

## Aluminum Feeder MC Cable

**Aluminum Conductor, Aluminum Armor**—6 awg to 750 mcm, 3 and 4 conductors 8000 series aluminum with a XHHW-2 or THHN/THWN-2 insulation. Black PVC jacket also available. Available in standard lengths or cut to length.

## Flexible Conduit

We also stock RWS, RWA, EFLT, UALT and NMLT in standard coils and reels.

## Special Constructions

If there is a construction that you need that is not listed just call us!
