ABOUT ESA FABRICATION

ESA Fabrication was founded in 2005 as a direct response to the challenges within the electrical industry. We set out to change both the approach and accessibility of solutions to contractors of any size. We believed that prefabrication was the key to changing the industry as a whole and introduced a service-oriented shop that specialized in material assembly, temporary power stations, conduit bending and threading, and metal fabrication.

Building on these early successes, we saw additional opportunities to provide the industry with solutions that focused on contractor efficiencies and safety. These product offerings have grown to include material handling carts, wire handling solutions, custom enclosures, and a myriad of other unique solutions. Small enough to provide a simple one-off and large enough to supply national demand, ESA is dedicated to improving our industry and assisting our partners to better serve the contractors that are building America.

What started as local service to southwest contractors has rapidly grown into a national resource that provides cutting edge products and services across the construction industry. We are proud of our history, growth, dedication to quality, and our rapid response to solving the challenges our customers face each and every day.

SPEED STATION™

Uniquely designed mobile office and workbench that opens into a 90 degree workstation; features a foldaway print table, two workbench tops, onboard vise and material storage. The Speed Station keeps you mobile with the materials and tools you need as your project progresses.

UPC	Model #	Description
850051778003	SPSC-1001	Speed Station™, Mobile Workstation w/ Vise, Red PC
850051778058	SPSA-1901	Chain Vise Attachment
850051778065	SPSA-1903	Vinyl Whiteboard Replacement
850051778072	SPSA-1902	Attachment for B1000 Bender

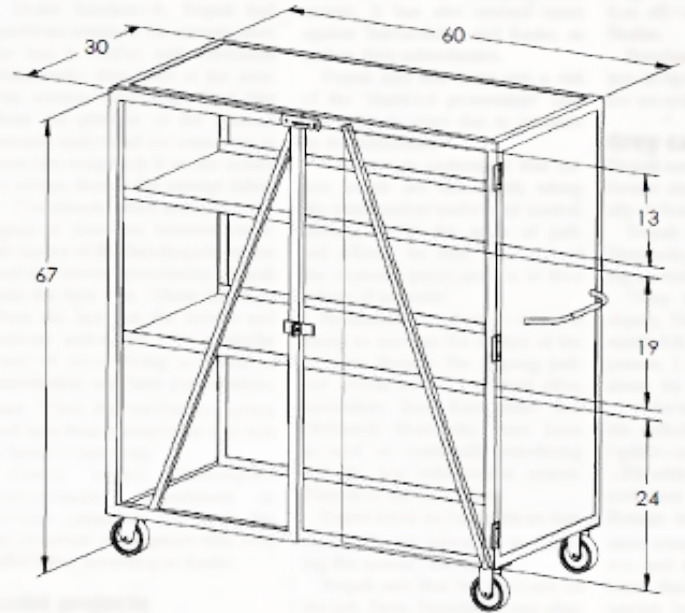

FEATURES:

- Workbench height clamshell design with foldaway plan table
- Purpose-built shelving designed to hold tools and materials in a lockable cabinet
- Charging shelf with pass-through power outlet ready for battery tool chargers
- Integrated vise for safe and easy cutting of conduit/strut or holds boxes for making knockouts
- Optional chain vise for IMC/GRC cutting or threading
- Retractable hooks for ladder or conduit storage
- Replaceable vinyl whiteboard surface
- 6" heavy-duty locking casters
- Optional attachment for GB B1000 Portable Cyclone Bender
- Patent pending

SHARK CART™

The Original SHARK CART™ is perfectly sized to allow easy storage of packaged materials and roll to anywhere on a job site.

UPC	Model #	Description
850051778102	SHKC-3001	Shark Cart™, (3) Shelves, 60"H x 30"W x 60"L, 6" casters, Red PC
	SHKC-3001-XX	Shark Cart, (3) Shelves, 60"H x 30"W x 60"L, 6" casters, Your Color

FEATURES:

- Large material storage capacity
- 3 fixed shelves
- Expanded doors and back for easy visibility of material
- 6" heavy duty locking casters for easy rolling and long life
- Full sheet metal sides for logos or co-branding with partner manufacturers

SIDE BY SIDE CART

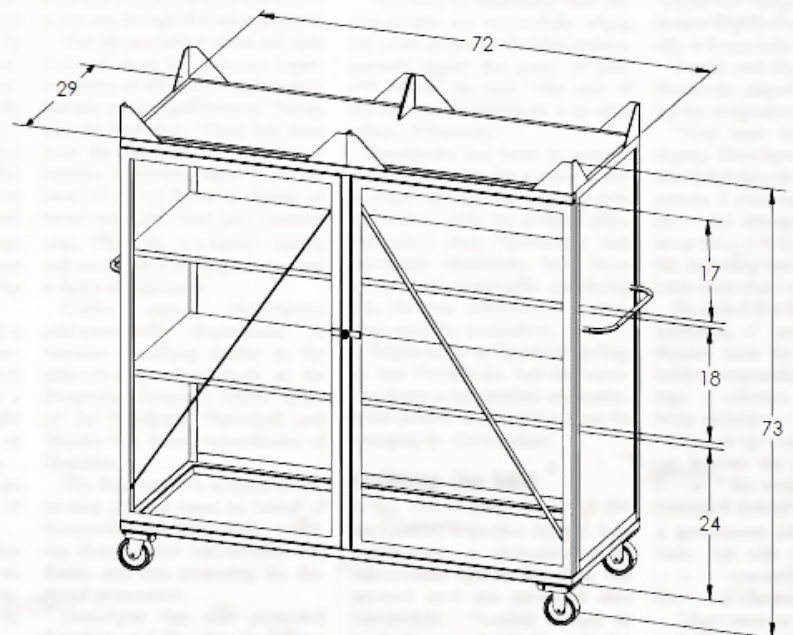

Purposefully designed XL cart to hold all types of electrical material. Cart includes brackets on top of the cart allowing for 10' material or for additional storage of boxed material.

UPC	Model #	Description
850051778119	SBSC-2001	Side by Side Cart, (3) Shelves, 62"H x 30"W x 72"L, 6" casters, Red PC
	SBSC-2001-XX	Side by Side Cart, (3) Shelves, 62"H x 30"W x 72"L, 6" casters, Your Color

FEATURES:

- Extra large material storage capacity
- 3 shelves
- Expanded doors and back for easy visibility of material
- Large storage shelves
- 6" heavy duty casters for easy rolling and long life
- Full sheet metal sides for logos or co-branding with partner manufacturers

CLAMSHELL CART

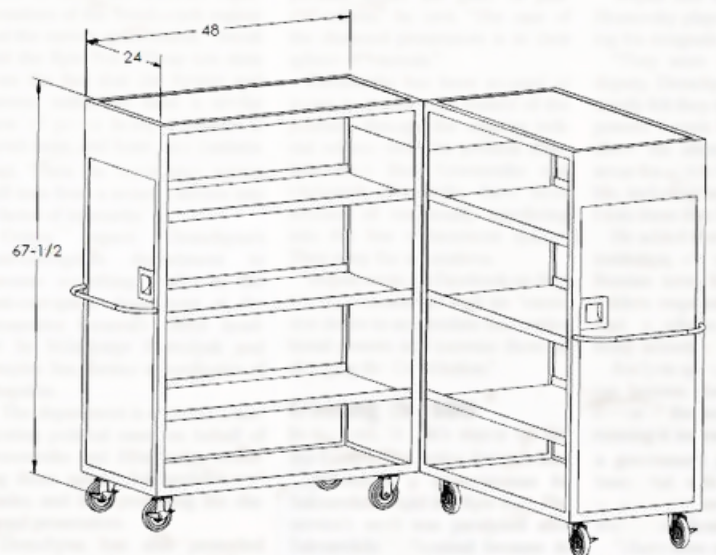

This cart holds a ton of material! Large cart with center hinge to allow easy access to all stored material. This cart is great for use inside of a Conex Container since there are no doors to open and close. Can be easily rolled through a job site.

UPC	Model #	Description
850051778126	CLSC-1002	Clam Shell Cart, (4) Shelves, 60"H x 48"W x 48"L, 6" casters, Red PC
850051778157	CLSC-1202	Clam Shell Security Cart (Full Sheet Metal Sides), (4) Shelves, 60"H x 48"W x 48"L, 6" casters, Red PC
	CLSC-1002-XX	Clam Shell Cart, (4) Shelves, 60"H x 48"W x 48"L, 6" casters, Your Color

FEATURES:

- Extra large material storage capacity
- Opens 180 degrees
- Designed so that it will not fit through a doorway when the cart is locked
- Fits through standard door fully opened
- Four 24" stationary shelves in each side
- Eight 6" heavy duty casters
- Full sheet metal or expanded metal sides

E-CART

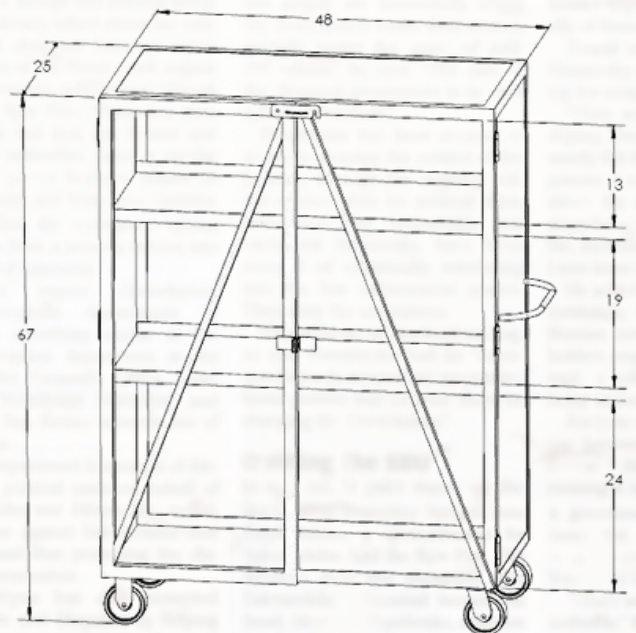

This smaller cart is perfect for storing material in congested work areas. The E-Cart has all the features of the Original Shark Cart™ with a little bit smaller footprint. Easy to move throughout a building.

UPC	Model #	Description
850051778133	ECOC-1001	E-Cart (3) Shelves, 60"H x 24"W x 48"L, 6" casters, Red PC
	ECOC-1001-XX	E-Cart (3) Shelves, 60"H x 24"W x 48"L, 6" casters, Your Color

FEATURES:

- Great for any commercial project
- Medium material storage capacity
- 3 stationary shelves
- Expanded doors and back for easy visibility of material
- 6" heavy duty casters for easy rolling and long life
- Full sheet metal sides for branding or co-branding with partner manufacturers

BRANCH WIRE CART

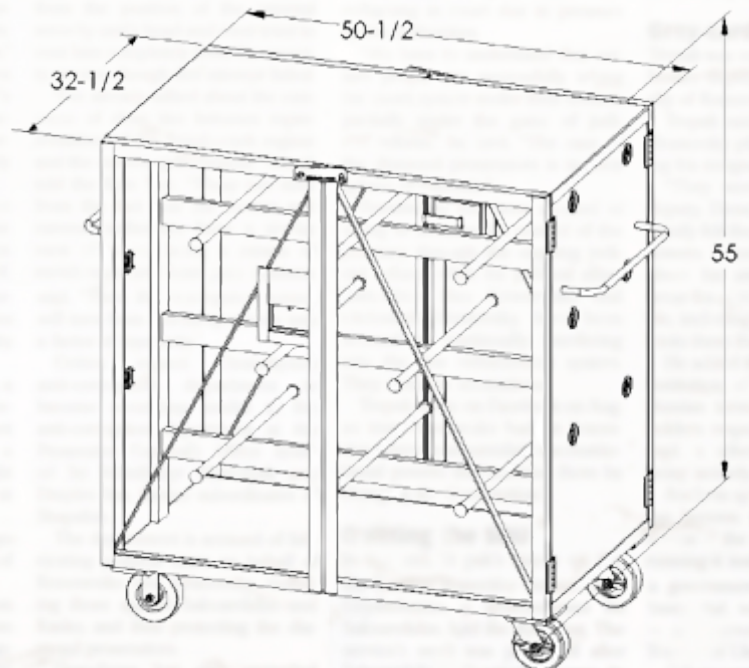

The absolute BEST way to handle circuit wire on a project. Securely store, move and pull from the Branch Wire Cart. Stop pulling wire the old way, step up to the secure, efficient way to pull home runs or branch circuits.

UPC	Model #	Description
850051778010	BRWC-2101	Branch Wire Cart, (4) Doors, 55"H x 32"W x 50"L, 6" casters, Red PC
	BRWC-2101-XX	Branch Wire Cart, (4) Doors, 55"H x 32"W x 50"L, 6" casters, Your Color

FEATURES:

- Holds 16 2500 ft. spools of cable (doors on both sides)
- Easily load wire spools onto the fixed axles
- Plastic grommets prevent wire damage
- Lockable to keep wire secure while on the job
- Expanded doors for visibility of material
- 6" heavy duty casters for easy rolling and long life

HOME RUN CART

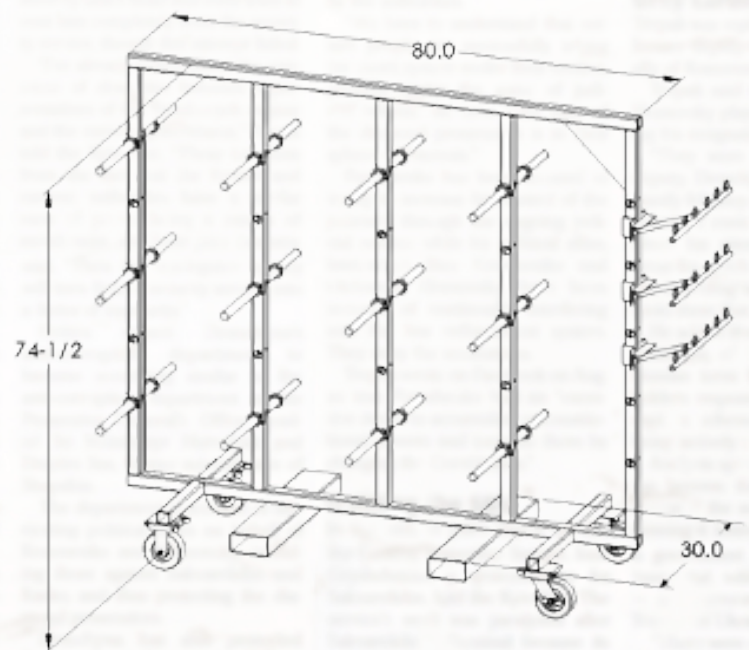

Need a wire cart that does it all? The Home Run Cart handles up to 24 spools of either circuit wire or data cable. This versatile cart allows you to have all the wire you need where you need it for pulling home runs, data runs, and branch circuits.

Model #	Description
WDOC-1002	Open Wire Cart – 24 Spools, 74.5"x80"x30" , 6" casters, Red PC
WDOC-1002-XX	Open Wire Cart – 24 Spools, 74.5"x80"x30" , 6" casters, Your Color

FEATURES:

- Holds 24 spools up to 18" diameter
- Easily load wire spools onto the adjustable axles
- Adjustable and removable axles to accommodate larger spools
- Retainers to keep spools on the axles
- Pulling eyes to keep wire organized
- Reduces set up and pull time when compared to traditional carts
- Fork tubes for safer handling
- 6" heavy duty casters for easy rolling and long life

BUNDLE CART

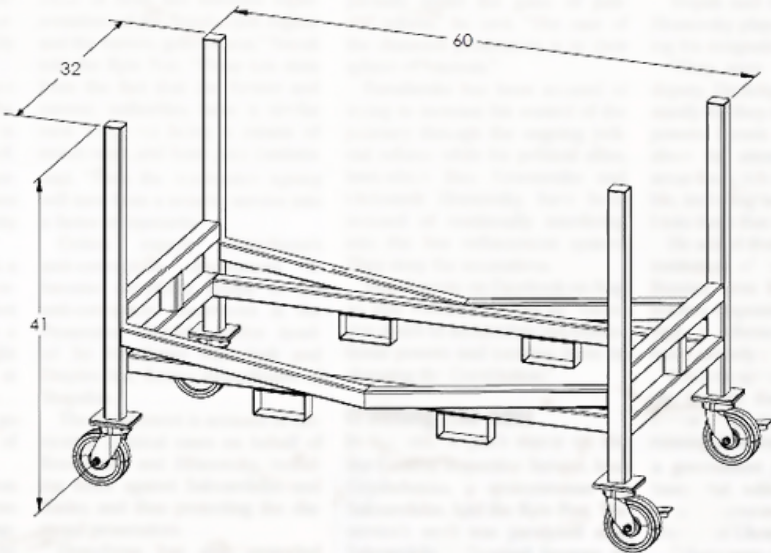

The Bundle Cart exceeds where others fall short. This unique design makes loading easy and safe while handling heavy loads up to 4,000 lbs.

UPC	Model #	Description
850051778027	BDLC-1002	Bundle Conduit Cart, Fork Pockets, 6" casters, 4,000# capacity, Red PC
	BDLC-1002-XX	Bundle Conduit Cart, Fork Pockets, 6" casters, 4,000# capacity, Your Color

FEATURES:

- Allows you to move bundles of 10 ft. materials
- Heavy duty 4,000 lbs. capacity
- 6" heavy duty casters for easy rolling and long life
- Fork pockets for safer loading on/off truck

CONDUIT TREE

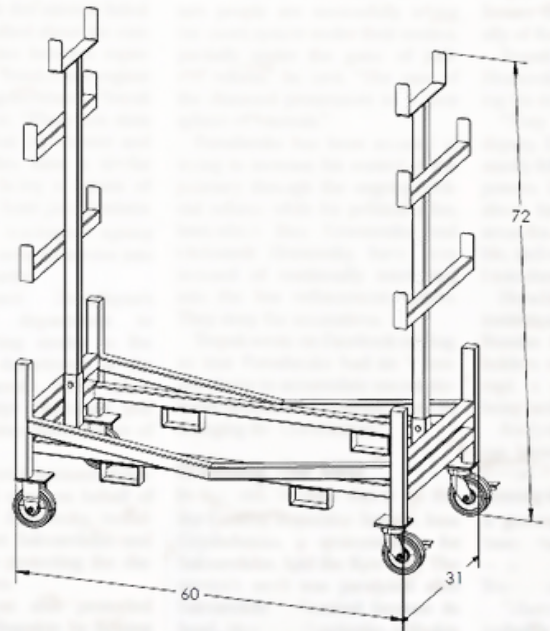

Best built Conduit Tree with capacity up to 4,000 lbs. Removable tree stands to take up less space when stored. Don't settle for cheap alternatives. Often imitated, but never duplicated.

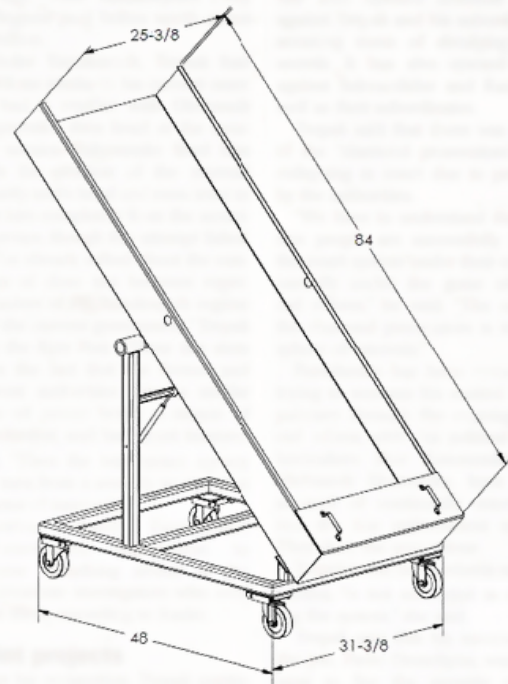

UPC	Model #	Description
850051778034	COTC-1001	Tree Conduit Cart, Fork Pockets, 6" casters, 4,000# capacity, Red PC
	COTC-1001-XX	Tree Conduit Cart, Fork Pockets, 6" casters, 4,000# capacity, Your Color

FEATURES:

- Heavy duty 4,000 lbs. capacity
- Tree stands remove to stack flat when not in use
- Fits 10 ft. materials
- Fork pockets for safer loading on/off truck
- 6" heavy duty casters for easy rolling and long life, 2 fixed and 2 non-fixed

ELEVATOR CART

Going up? Smart design allows you to move 10 ft. sticks of conduit or strut easily in/out of an elevator.

UPC	Model #	Description
850051778041	COEC-1101	Elevator Conduit Cart, Tilt Tray, 6" casters, Red PC
	COEC-1101-XX	Elevator Conduit Cart, Tilt Tray, 6" casters, Your Color

FEATURES:

- Heavy duty 2,500 lbs. capacity
- Fits 10 ft. materials
- Tilts materials to fit into a service elevator
- 6" heavy duty casters for easy rolling and long life
- Great for highrise work

FIXTURE CART

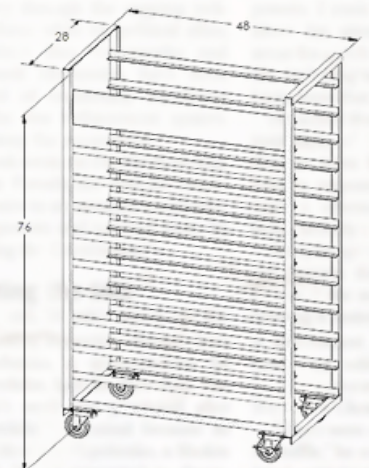

Got Fixtures? Tired of damaged or scuffed fixtures showing up to the job? This cart is the solution. Easily allows you to move fixtures on to a job with ease and without damage.

UPC	Model #	Description
850051778089	FIXC-1001	Fixture Cart, 12 slots, 4' Edge Support, 4" casters, Red PC
850051778140	FIXC-1003	Fixture Cart, 12 slots, 4' Edge Support, 4" casters, Hinged Lock w/ Backstop, Red PC
850051778164	FIXC-9801	Fixture Cart Tray, Galvanized
	FIXC-1001-XX	Fixture Cart, 12 slots, 4' Edge Support, 4" casters, Your Color
	FIXC-1003-XX	Fixture Cart, 12 slots, 4' Edge Support, 4" casters, Hinged Lock w/ Backstop, Your Color
	FIXC-9801-XX	Fixture Cart Tray, Galvanized

FEATURES:

- Holds 12-2'x4' or 24-2'x2' fixtures
- High grade felt on each runner to protect fixtures from getting scratched
- 4" heavy duty casters for easy rolling and long life
- Remove the cardboard and ship fixtures ready to install
- Option with hinged lock and backstop for ease of securing fixtures

LINEAR FIXTURE CART

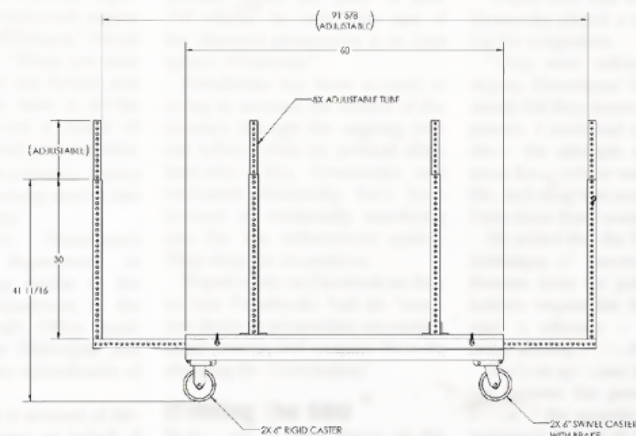

Linear Fixture Cart is a very versatile material handling cart. This cart expands and contracts to fit a multitude of different lengths, sizes, and shapes.

Can be used to move Busduct, Pipe, Strut, and other long materials

UPC	Model #	Description
850051778171	LFXC-1001	Linear Fixture Cart, (8) Upright Adj. Arms, (20) 3/8" Cross Bars, 60"x32" Base, 6" Casters, Red PC
	LFXC-1001-XX	Linear Fixture Cart, (8) Upright Adj. Arms, (20) 3/8" Cross Bars, 60"x32" Base, 6" Casters, Your Color

FEATURES:

- Heavy duty base frame for projects beyond just fixtures
- Arms slide out horizontally to accommodate longer fixtures
- Arms extend vertically for multiple layers of fixtures or material
- 20 cross rods allow for multiple layers to prevent damage during transport or on the job site
- Multipurpose cart can be used for bus duct and pipe
- 60" x 32" base with adjustable upright arms
- 8 upright adj. arms (30" sleeve extends to 60")
- 6" heavy duty casters

PICKING CART

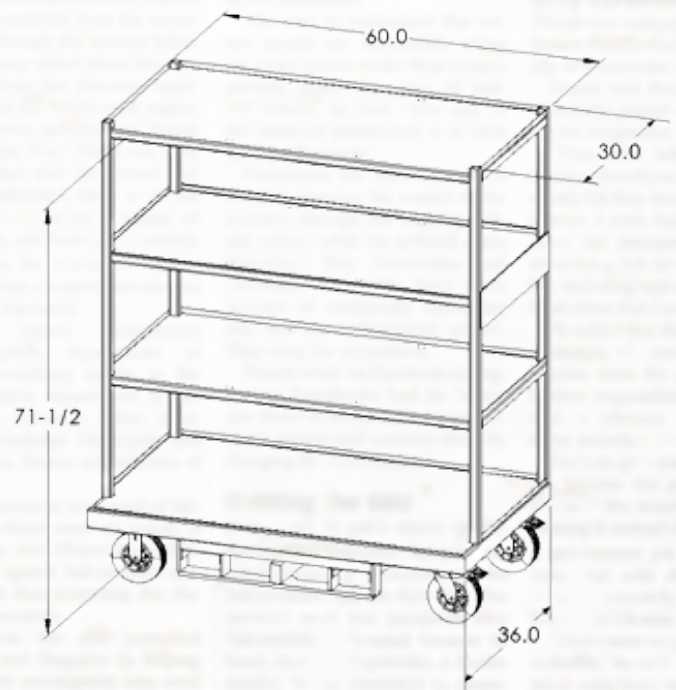

ESA Picking Carts are ideal for picking orders, moving merchandise, and simple ergonomic material handling.

The cart's lipped shelving helps contain merchandise while the open style frame permits visibility of contents from all sides. Whether unloading packages, counting inventory, stocking shelves, gathering parts, or picking merchandise for order filling, the Picking Cart is designed to help get the job done efficiently.

Model #	Description
FOPC-1003-XX	Picking Cart, 6" Casters, 72H x 60W x 36D

FEATURES:

- Heavy duty steel construction for added reliability
- 3 shelves, plus base platform for product placement are standard
- Two rigid and two swivel casters
- Side and rear edges on shelves contain contents during transport
- Durable powder coat finish resists both corrosion and scratches
- 17.875" height between shelves
- Custom-built models also available to meet unique specifications

SPOOL BOSS™ NARROW

Reel Easy, Reel Simple, Reel Safe

Spool Boss™ Narrow is a wire reel payoff system designed to handle heavy cable reels on job sites. The Spool Boss is easily maneuvered through standard doorways or through narrow hallways with its zero-turn radius mobility. It allows one individual to safely load/unload and move reels with built-in hydraulics and an integrated braking system. Spool Boss can move reels into position over concrete with ease, making it the safest and most versatile wire handling system on the market.

Model #	Description
SBU10-010	Spool Boss™-Narrow Reel Mover, 32" outside width, 6500# capacity

FEATURES:

- Handle up to 6,500 lbs. heavy wire payloads with no worries
- Save your time with an integrated charging feature
- Self-brakes itself as soon as you let go of the handle
- Lifts the wire reels with incorporated hydraulics
- Fork tubes designed to improve stability & safety while lifting
- Zero turn radius
- Fits through a 3' door
- Patented

SPOOL BOSS™ WIDE

Reel Easy, Reel Simple, Reel Safe

Spool Boss™ Wide is a wire reel payoff system that can handle heavy cable reels on job sites or in the distributor wire room. It allows one individual to safely load/unload and move reels with built-in hydraulics and an integrated braking system. Spool Boss can move reels into position over concrete with ease, making it the safest and most versatile wire handling system on the market.

Model #	Description
SBU20-010	Spool Boss™- Wide Reel Mover, 50" inside width, 6500# capacity

FEATURES:

- 6,500 lbs. capacity
- Handles up to 60" reel
- Save your time with an integrated charging feature
- Self-brakes itself as soon as you let go of the handle
- Lifts the wire reels with incorporated hydraulics
- 50" throat makes it easy to lift reels off pallets
- Fork tubes designed to improve stability & safety while lifting
- Zero turn radius
- Patented

**SEE OUR WIRE ROOM
TIME STUDY:**

TWO WAY A-FRAME 35.5

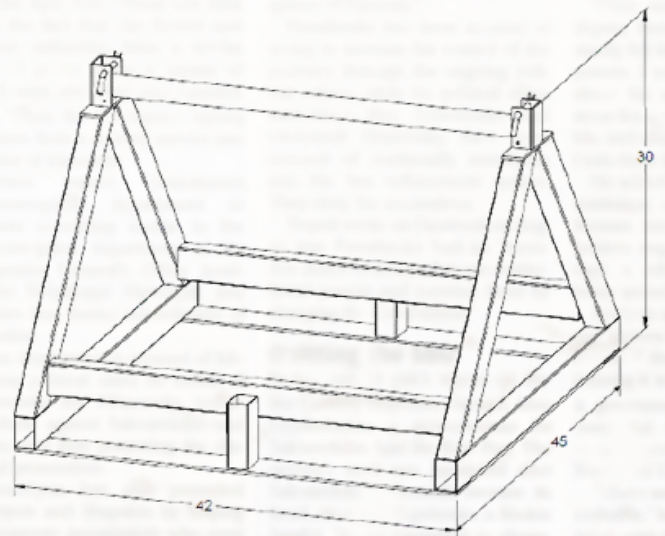

Small A-Frame with a 35.5" inside width, is constructed from heavy-duty steel with a powder coat finish to give it added durability from job to job.

Our high-density low-friction polymer axle saddles last longer at a maximum load while reducing friction on the axle. This unit accommodates our 40" compartment reels with capacity up to 5000 lbs.

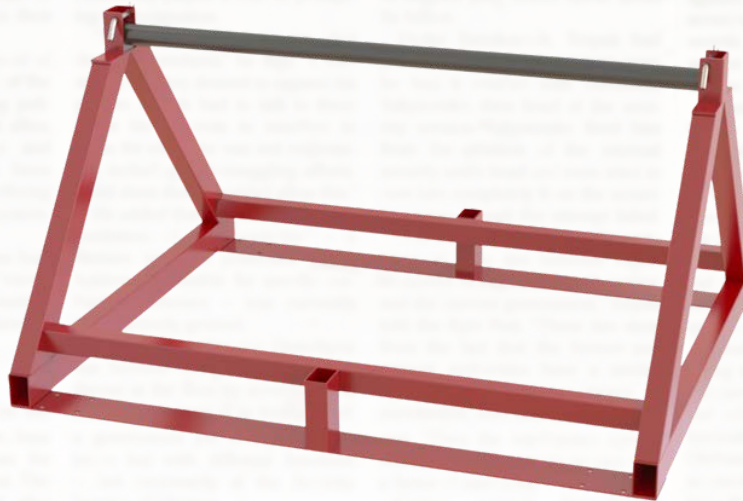

Model #	Description
ARSU-1101-XX	A-Frame Reel Stand 2-Way 5000# Payload, 40" max diameter reel, 35.5" ID, Your Color

FEATURES:

- 5,000 lbs. capacity
- Easy wire payoff
- Fully welded construction and powder coated for maximum durability
- 2-way forklift pockets
- Works with 40" reels
- Comes with 2" solid steel axle

TWO WAY A-FRAME 50

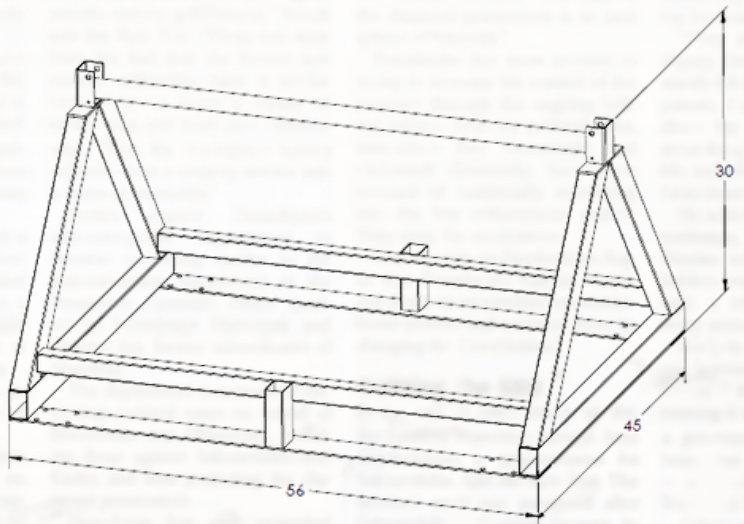

Large a-frame with a 50" inside width, is constructed from heavy-duty steel with a powder coat finish to give it added durability from job to job. Our high-density low-friction polymer axle saddles last longer at a maximum load while reducing friction on the axle. This unit accommodates our 48" compartment reels with capacity up to 5000 lbs.

Model #	Description
ARSU-2101-XX	A-Frame Reel Stand 2-Way 5000# Payload, 48" max diameter reel, 50" ID, Your Color

FEATURES:

- 5,000 lbs. capacity
- Easy wire payoff
- Fully welded construction and powder coated for maximum durability
- 2-way forklift pockets
- Handles 48" reels
- Comes with 2" solid steel axle

FOUR WAY A-FRAME

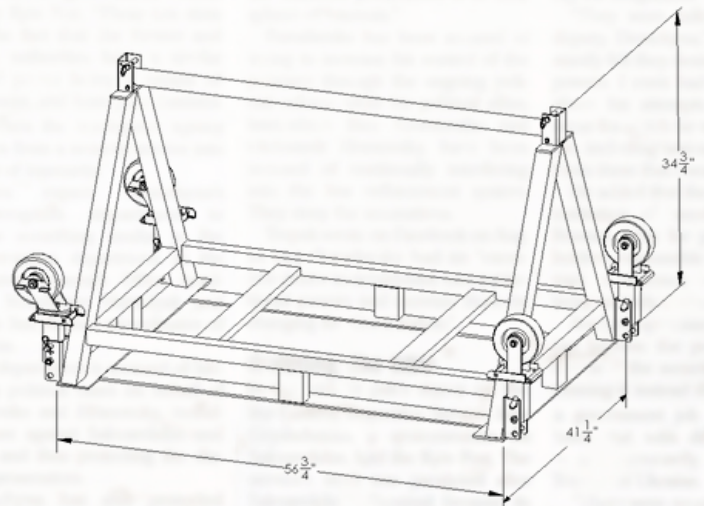

Our Four Way A-Frame is easily moved from any direction with either a forklift or pallet jack. The Flip-Down caster design means casters are always attached. Our high-density low-friction polymer axle saddles last longer at a maximum load while reducing friction on the axle. This unit accommodates our 48" compartment reels with capacity up to 5000 lbs.

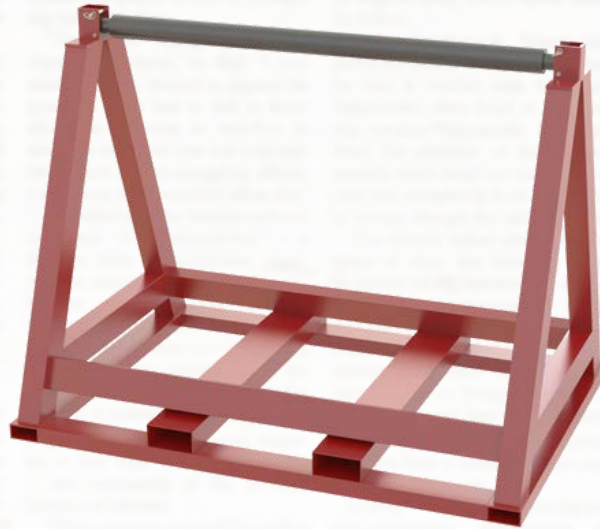

Model #	Description
ARSU-3302-XX	A-Frame Reel Stand 4-Way, Drop-Down 6" Casters 5000# Payload, 48" max diameter reel, 50" ID

FEATURES:

- Easy payoff of wire
- Fully welded construction and powder coated for maximum durability
- Designed to be rolled or stand alone
- Forklift pockets on all four sides for easy lifting or use with a pallet jack
- Flip down 6" heavy duty casters are always attached
- Handles 48" diameter reels, up to 50" wide
- Comes with 2" solid steel axle

A-FRAME 8000

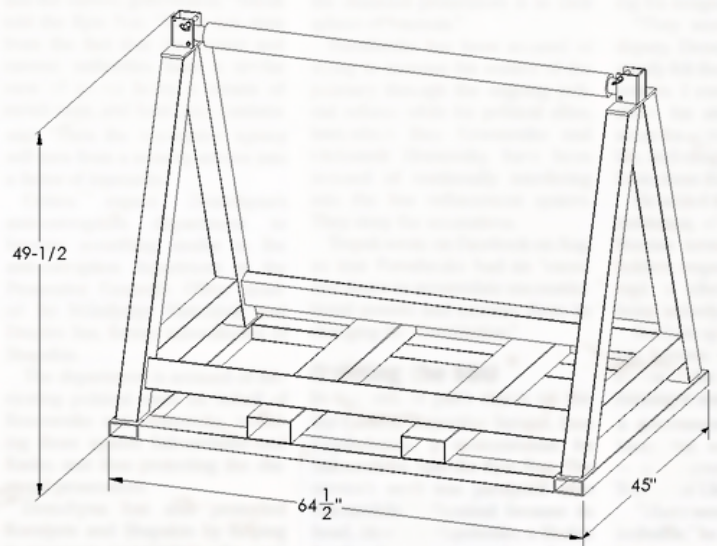

Heavy duty 8,000 lbs. capacity A-Frame that is built to handle cable reels with diameters up to 78". Constructed from heavy-duty steel with a powder coat finish to give it added durability from job to job. Our high-density low-friction polymer axle saddles last longer at a maximum load while reducing friction on the axle.

Model #	Description
ARSU-4101-XX	A-Frame Reel Stand 8000# Payload, 78" Max diameter reel, Your Color

FEATURES:

- Handles up to 78" diameter reel
- 8,000 lbs. capacity
- Easy load/unload
- Easy payoff of wire with minimum overspin
- Fully welded construction and powder coated for maximum durability
- 2-way forklift tubes
- Comes with 3" steel axle

A-FRAME 12000

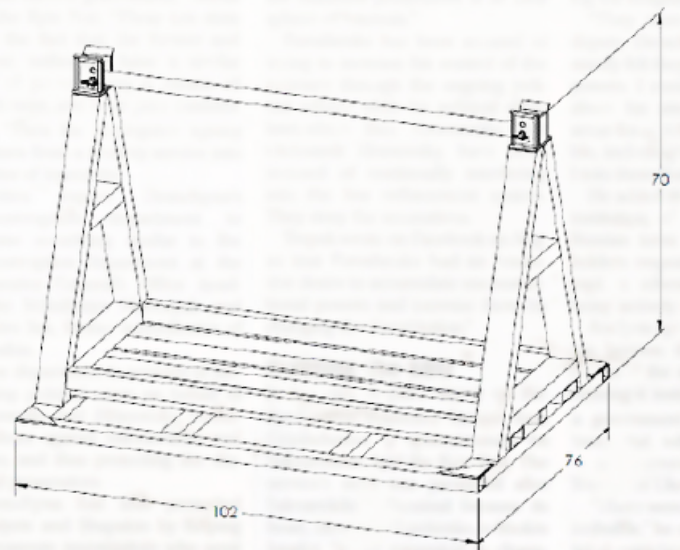

Heavy duty 12,000 lbs. capacity A-Frame built to handle large cable reels up to 108" diameter. Constructed from heavy-duty steel with a powder coat finish to give it added durability from job to job. Our high-density low-friction polymer axle saddles last longer at a maximum load while reducing friction on the axle.

Model #	Description
ARSU-5002-XX	A-Frame Reel Stand 12,000# Payload, 108" max diameter reel, Your Color.

FEATURES:

- Handles up to 108" diameter reel
- 12,000 lbs. capacity
- Easy load/unload
- Easy payoff of wire with minimum overspin
- Fully welded construction and powder coated for maximum durability
- 2-way forklift pockets
- Comes with 3" steel axle

STEEL REELS

ESA Reels are constructed from heavy-duty steel and powder coat finish with unique barrel and hub design for added durability from job to job. All compartments have predrilled holes to accommodate a wide variety of wire gauges. Standard sizes are available in 15 different configurations with one to four compartments. Multiple sizes and styles available in 8 or 10 spoke configurations.

**SINGLE COMPARTMENT,
8 + 10 SPOKE**

**3 COMPARTMENT,
8 + 10 SPOKE**

**4 COMPARTMENT,
8 + 10 SPOKE**

FEATURES:

- Heavy duty steel construction for added reliability
- 40", 44.75", and 48" diameter reel sizes
- 8 and 10 spoke styles to meet your capacity needs
- 1, 3, and 4 compartment reels
- Compartments have predrilled holes to accommodate a variety of wire gauges
- Durable powder coat finish
- Reinforced hub plates for maximum capacity
